Every lesson on this site is free.

No paywall, no trial, no account to make. Download the files, print them, and use them tomorrow.

I teach career-focused credit recovery, and I build these for my own students first. If a lesson works in my room, it goes on the site. If it does not, it gets fixed before anyone else sees it.

Every file in this toolkit has its own page on the site, with the download sitting right on it. The links on the next page go straight there.

> ### Coming soon: the supporter tier
>
> For $4.99 a month you get the self-grading Google Forms version of every quiz and exit ticket, so the grading is done before the period ends.
>
> You also get one-click copies of everything into your own Drive, and clean files with no ads on them.

If one of these saved you a prep period, there is a tip jar on the site. It helps keep the lights on. Everything here stays free either way.

Building Your First Budget - From Paycheck to Plan

Personal Finance · Unit 02 Budgeting and Money Management

Quick start

1. Click any link below. It opens that file's page on the site.
2. Hit the button on that page to get the file.
3. Print it or assign it. Nothing to unzip and no account to make.
