Teacher Answer Key

Case Study

1. They were removed to clear space for tourism-focused constructions such as hotels, restaurants, and shops.

2. The shift toward tourism jobs and infrastructure can undermine traditional fishing practices and potentially harm the local ecosystem.

Multiple Choice

1. B

2. A

3. D

Matching

1-E, 2-C, 3-D, 4-A, 5-B

Fill-in-the-Blank

1) Cultural landscape, 2) Adaptation, 3) heritage

Short Answer (Sample Responses)

Q1: Tourism might introduce modern, large-scale buildings and entertainment venues, replacing or overshadowing traditional architectural forms.

Q2: Incorporating local beliefs and history fosters a sense of community ownership and preserves the heritage that monuments and districts are meant to represent.

Q3: Rising sea levels, increased storm intensity, and other climate impacts may force coastal populations to relocate or construct barriers, reshaping settlements and cultural practices.
