Teacher Answer Key

Case Study

1. Students received tokens for each item they brought, which they could exchange for other garments.

2. The swap allowed garments to be reused instead of being thrown away, thus prolonging their life cycle and reducing landfill contributions.

Multiple Choice

1. D

2. B

3. D

Matching

1-D, 2-A, 3-B, 4-E, 5-C

Fill-in-the-Blank

1) greenwashing, 2) chemicals, 3) Synthetic

Short Answer (Sample Responses)

Q1: Repairing or reselling extends the item's useful life, lowering the overall demand for new resources and reducing landfill waste.

Q2: Chemicals in pesticides can contaminate water supplies, harm wildlife, and reduce biodiversity, disrupting local ecosystems.

Q3: By buying fewer, higher-quality pieces or choosing sustainable brands, consumers push companies to adopt eco-friendlier methods and materials.
