Teacher Answer Key

Case Study

1. They overlaid maps of supermarkets, income levels, and vehicle access to find neighborhoods lacking easy access to fresh groceries.

2. Because many residents relied on public transit, the ability (or inability) to travel conveniently to a supermarket influenced a neighborhood's food availability.

Multiple Choice

1. C

2. A

3. B

Matching

1-B, 2-D, 3-E, 4-A, 5-C

Fill-in-the-Blank

1) Spatial analysis (or: Spatial thinking), 2) Question, 3) Transportation

Short Answer (Sample Responses)

Q1: Spatial thinking focuses on the "where" and "why" aspects, integrating location and relationships between places or objects.

Q2: "How do local landforms influence the development of tourism in this region?"

Q3: Qualitative input captures real human experiences and constraints that raw numbers might overlook, guiding more effective, community-centered solutions.
